Remarks:

At the end of May, I accepted the resignation of Deputy Coroner Susan Kaudy. Sue had been with the department for over 19 years. While I am sorry to see her leave as she was a wealth of knowledge and help to all members of this department, I wish her the best in retirement.

I would like to thank Wisconsin Rapids Detectives Lubeck and Daven for their help with two ongoing cases. The first is a 13-month-old infant from a month ago. Dr. Corliss had several follow-up questions regarding the case

and Detective Lubeck is helping to finish off the case between myself and Dr. Corliss. The second case is the 17-year-old female from the house fire in Wisconsin Rapids. Due to the case being in the news, I received numerous requests for information and both Detective Lubeck and Detective Daven were there to help me navigate these requests as they were the lead investigators on the case.

Respectfully Submitted,

David A. Patton

#2 – Calls for Service: North end Wood County received a total of 63 calls for service, 5 which were requests to scene deaths. South end Wood County received a total of 28 calls for service, 9 of which were requests to respond to

scene deaths. I received a total of 7 calls requesting follow-up information or requesting copies of reports.

#4 – Falls: In May, we had a 91-year-old gentleman who had fallen and fractured his femur. After surgery, he developed a severe stroke and eventually succumbed to the stroke. Sadly, this is not uncommon in these types of cases.

#6 – Traffic Fatalities: We had one traffic fatality in May. This was a 38-year-old female. Currently, this accident is still under investigation.

#11 – Other: The other case we had last month was the 17-year-old female that was the victim of the house fire in Wisconsin Rapids.

#12 – Pending: We have 2 cases marked as “pending” while we await autopsy and toxicology results. I believe one of these cases will be classified as accidental and the other will be natural in nature.

#15 – Autopsies: We completed 2 autopsies at UW Madison. The first was the 38-year-old male that we discussed the alternative means of autopsy. The second was unfortunately the 17-year-old girl that was the victim of a house fire. The first case, I believe, will be ruled as “natural” while the second case will be ruled as “accidental” with respect to manner of death.
