OFFICE OF  
HIGHWAY COMMISSION

*Roland Hawk*  
COMMISSIONER

January 28, 2026

To: Highway, Infrastructure & Recreation Committee  
From: Roland Hawk, PE Highway Commissioner  
Subject: Commissioner Report for February 5, 2026, HIRC meeting

### Department Activities

#### Personnel/Administration

Highway staff conducted interviews for the mechanic vacancy on January 26. Commissioner is reviewing references and anticipates a candidate to start in mid-February.

The Wisconsin County Association is asking counties to pass a Sustainable Transportation Funding Resolution that urges lawmakers and future Governors to find a solution to sustainable transportation funding.

Highway staff conducted a field survey of CTH BB north of CTH B intersection in the Town of Lincoln and determined the traffic volumes and type of traffic (significant higher truck traffic) has increased. The stopping site distance for vehicles approaching Yellow River Road was at the minimum distance for 55 MPH. Moving the reduced speed limit 0.14 miles north of the intersection improves safety for those slow-moving agricultural vehicles entering the highway from Yellow River Road and adjacent fields.

Crew members have requested hands free devices be added to PPE list. If HIRC finds acceptable, items would be eligible for PPE Safety Allowance reimbursement.

Town of Milladore contacted Commissioner to inquire about a possible Highway Set-back waiver for town hall addition. The town does not have zoning ordinances related to highway set-back, therefore county ordinance regulates the set-back distance.

**INTENT & SYNOPSIS:** To encourage the Governor of Wisconsin and the State Legislature to enact a comprehensive, sustainable transportation funding solution

**FISCAL NOTE:** None

WHEREAS, local units of government in Wisconsin own and maintain approximately 90% of the public road miles in the state, including county highways, town roads, and city and village streets; and

WHEREAS, Wisconsin's economy—rooted in agriculture, manufacturing, and tourism—relies on a safe, reliable, and well-maintained transportation network; and

WHEREAS, local governments greatly appreciate the one-time infusions of General Purpose Revenue, primarily sales and income taxes, and other revenue provided in recent state budgets, which have enabled the initiation and continuation of the successful and popular Local Roads Improvement Program Supplemental (LRIP-S) and Agricultural Roads Improvement Program (ARIP); and

WHEREAS, despite modest increases from the state over the years, transportation aids to local governments remain insufficient to keep pace with inflation and rising construction costs, leaving many communities funded below 2000 levels in real dollars; and

WHEREAS, local governments throughout Wisconsin continue to struggle to perform even routine maintenance, pavement preservation, and safety improvements, resulting in deteriorating roads and bridges; and

WHEREAS, the inaugural inventory and assessment of small bridges between 6 to 20 feet found about 10% of the nearly 17,000 structures to be in poor or severe condition; and

Adopted by the County Board of Wood County, February 17, 2026

WHEREAS, levy limits and other fiscal constraints prevent local governments from independently filling the funding gap created by inadequate state transportation aids; and WHEREAS, absent sustainable state funding, many communities have been forced to address their shortfalls by significantly increasing borrowing, deferring essential projects, or imposing local vehicle registration (“wheel”) taxes; and

WHEREAS, Wisconsin motorists currently pay among the lowest transportation user fees in the Midwest, while neighboring states and dozens of others nationwide have enacted long-term revenue measures to keep their transportation systems competitive; and

WHEREAS, Wisconsin is increasingly relying on General Purpose Revenues to make needed investments, potentially pitting transportation against other vital services, such as education; and WHEREAS, continued lack of growing, dedicated, and predictable revenue places Wisconsin at a growing economic disadvantage by threatening the efficiency of freight movement, the safety of travelers, and the attractiveness of our state to businesses and residents; and

WHEREAS, both Wisconsin’s aging Interstate highway system—largely constructed in the 1950s and 1960s—and our extensive network of state and local roads require predictable, adequate, and sustainable funding to meet current and future needs;

NOW, THEREFORE, BE IT RESOLVED that the Wood County Board of Supervisors strongly urges the Governor of Wisconsin and the State Legislature to enact a comprehensive, sustainable transportation funding solution that:

1. Provides adequate and reliable revenue growth for the efficient long-term planning and execution of state and local transportation programs;
2. Includes responsible and prudent use of General Purpose Revenue and bonding;
3. Adjusts any new and existing transportation user fees and other revenue mechanisms to sustain purchasing power in order to maintain and improve Wisconsin’s transportation infrastructure; and
4. Ensures transportation continues to deliver for Wisconsin by adequately funding reconstruction, preservation, and safety investments on the state and local systems.

BE IT FURTHER RESOLVED that the County Clerk is hereby directed to transmit a copy of this resolution to the Governor’s office, all members of the Wisconsin State Senate and Assembly representing districts within Wood County and the Wisconsin Counties Association.
